CAREER OBJECTIVE

To obtain an internship or entry-level opportunity in Artificial Intelligence and Data Science where I can apply my knowledge of Python, web development (HTML, CSS, JavaScript), and programming concepts to develop innovative solutions while enhancing my technical and analytical skills.

EDUCATIONAL QUALIFICATION

Course	Institution	Branch and CGPA/%	University / Board	Year of Passing
B. Tech	DVR & Dr. H.S MIC College of Technology	Artificial Intelligence and Data Science And 8.08	JNTUK	2024-2028 (Pursuing)
Intermediate	Narayana Junior College,Bhavanip uram	MPC and 88.9%	Board of Intermediate Education	2022-2024
SSC	GNR MC High School	SSC and 80.1%	Board of Second- ary Education	2021-2022

TECHNICAL SKILLS

- Programming Languages: C, Python, OOPS
- Web technologies: HTML, CSS, JavaScript
- Database: MySQL (Basic)

- Tools & Platforms: VS Code, Jupyter Notebook, MS Excel
- Content Writing, English Proficiency.

STRENGTHS

- Quick Learner
- Self-Motivated
- Problem-Solving Ability
- Good Communication Skills
- Teamwork & Collaboration
- Time Management

ACHIEVEMENT

- Developed an Interactive Math Quiz Web Application using HTML, CSS, and JavaScript with scoring and timer functionality.
- Programming in C – Infosys Springboard.
- Participation in AI-Powered Web Development Workshop.

PROJECT

Ultimate Math Quiz Web Application

- Developed an interactive math quiz web application using HTML, CSS, and JavaScript.
- Implemented dynamic question generation and score tracking system.
- Designed a responsive user interface to improve user experience.
- Added timer functionality and result evaluation for quiz performance.

Cybersecurity Password Analyzer

- Developed a Python-based Password Strength Analyzer to evaluate password security using multiple strength parameters.
- Implemented password analysis features including length, character diversity, and complexity checks with user-friendly feedback.
- Designed an interactive GUI using Tkinter and included a custom wordlist generator for educational cybersecurity purposes.

Network Traffic Analysis using Wireshark

- Captured and analyzed network traffic using Wireshark to understand communication between devices.
- Applied protocol filters such as TCP, UDP, ICMP, and DNS to inspect and analyze network packets.
- Identified network behavior and documented findings to strengthen practical cybersecurity and networking skills.

DECLARATION:

“I hereby declare that all the above information provided in this resume is true and accurate to the best of my knowledge”.
